

Hello Everyone and happy New Year!

The Wakesports Reform Coalition (WRC) wanted to provide everyone with some exciting updates in relation to our policy efforts. With that, we will soon be requesting everyone's engagement, making phone calls, sending emails and contacting your state representatives and state senators. We are a Wisconsin based coalition with a LOT of supporters facing a huge national business interest with a lot of money. Our power comes through contacting our elected officials and that cannot be overstated. Here is what we know at this time.

Today the new Wisconsin State Legislature was sworn in. We have had great conversations with legislators and we feel confident we have bill authors lined up. With that, there is a potential to have a bill authored early in this legislative session. What is needed from coalition members now? First, awareness in your membership that a bill we have been pushing for will arise. Second, making sure you have your contact lists ready to go for distribution of our message to mobilize people to contact their legislators.

As always, anything in the policy world can change rapidly and nothing is promised, knowing that we will keep everyone up to date with the best information available. Lastly, I have attached our most recent press release that went out this week and there has been a huge flurry of positive phone calls and additional media outlets are picking this up.

Thank you for your time, commitment and energy and please feel free to contact me if you have any questions,

Cody
